These are my online articles and essays.

Parental Alienation as Child Abuse (2010)

This is the first essays I wrote, a decade ago. It was as true then as it is now, 10 years of child abuse, unrecognized by professional psychology, untreated by professional psychology. Where is the American Psychological Association and a call for professional competence?

🔊 [Parental Alienation as Child Abuse \(Childress, 2010\) \(https://drcachildress-consulting.com/wp-content/uploads/2019/11/Parental-Alienation-as-Child-Abuse-Childress-2010.pdf\)](https://drcachildress-consulting.com/wp-content/uploads/2019/11/Parental-Alienation-as-Child-Abuse-Childress-2010.pdf)

American Psychological Association (Childress & Pruter, 2019)

This is the article we presented at the national convention of the American Psychological Association in 2019. This article formally presents the High Road workshop single-case ABA clinical research data.

Blog: High Road Single-Case ABA (Childress, 2019)

This is my blog presenting the High Road single-case APA clinical case data.

Petition to the APA (Childress & 20,000 Parents, 2019)

This is the Petition to the APA submitted directly to the American Psychological Association offices on June 6, 2018 by a delegation of Wendy Perry, Rod McCall, and Dr. Childress. At the time, the Petition to the APA was signed by over 19,000 parents, that number has grown and continues to grow:

🔊 [Petition to the APA \(https://www.change.org/p/the-american-psychological-association-ending-parental-alienation-pathology-for-all-children-everywhere\)](https://www.change.org/p/the-american-psychological-association-ending-parental-alienation-pathology-for-all-children-everywhere)

The Petition to the APA describes rampant and unchecked ethical code violations within forensic psychology and seeks three remedies, 1) an immediate press release from the APA affirming their support for Standard 2.01 on professional competence, 2) a formal reconsideration of their Position Statement on PAS since there are now two models describing the pathology – AB-PA (Bowlby, Minuchin, Beck).

The American Psychological Association has yet to reply.

Boundaries of Competence (Childress, 2011)

This is an early essay from 2011 on professional boundaries of competence related to parental alienation pathology. This is exactly the same line carried forward in the 2019 Petition to the APA. Identified violations to the APA ethics code have been occurring in forensic psychology for a decade, yet the APA does nothing.
