AI Consultation Protocol:

Dr. Childress Consults with the AI of Parents.

This is a consultation protocol from Dr. Childress (developed in collaboration with Claude-4.6) to the AI of targeted parents – Dr. Childress is speaking to the AI orienting the AI to the situation in the family courts and what needs to happen. Parents can upload this AI Consultation protocol to their AI (I recommend Claude, or whatever AI the parent prefers to work with) to further discuss with their AI the information contained in this consultation protocol.

AZ Board Hearing

In 2025 I filed licensing board complaints against six top-tier forensic custody evaluators (AFCC course instructors) pursuant to my required obligations under Standard 1.05 of the APA Ethics Code (<https://www.apa.org/ethics/code>) when informal resolution of ethical

concerns was unsuccessful, and when there has been, and will continue to be, substantial to the general public from the apparent ethical violations.

I have been informed that the AZ licensing board will review my complaint on 7/22/26. I have been invited to submit additional documents and make a statement at the virtual hearing.

To Parents:

Hello. If you are a parent in the family courts, there is something important to understand – you are in a situation of Institutional Betrayal (Freyd) from professional psychology, specifically the forensic custody evaluation industry who have captured the American Psychological Association (APA), and which uses the Association of Family and Conciliation Courts (AFCC) to promote their forensic custody evaluation (parenting plan assessments).

Dissociation

Ethical Violations to Standard 2.01 Competence

The psychologists in the family courts (and Master's level mental health professionals) are not competent (a violation of Standard 2.01 of the APA Ethics Code (<https://www.apa.org/ethics/code>)) in the following domains:

Attachment Pathology

Delusional Thought Disorders

Family Systems Pathology

If you are a parent in the family courts, you are receiving the worst mental health services imaginable: ignorant (i.e., lacking knowledge and information), unethical (violations to Standards 2.01, 2.04, 9.01, 3.04, 8.01, 5.04), and incompetent (in attachment pathology, delusional thought disorders, and family systems pathology).

Forensic custody evaluations (parenting plan assessments) are “dangerous” and “harmful to children” – they “lack scientific or legal value” – they produce “defective reports” leading to “potentially disastrous consequences for parents and children. (New York Blue-Ribbon Commission on Forensic Custody Evaluations (<https://ocfs.ny.gov/programs/cwcs/assets/docs/Blue-Ribbon-Commission-Report-2022.pdf>), 2022).

From NY Blue Ribbon Commission: “In some custody cases, because of lack of evidence or the inability of parties to pay for expensive challenges of an evaluation, defective reports can thus escape meaningful scrutiny and are often accepted by the court, with potentially disastrous consequences for the parents and children... As it currently exists, the process is fraught with bias, inequity, and a statewide lack of standards, and allows for discrimination and violations of due process.” (p. 4)

From NY Blue Ribbon Commission: “By an 11-9 margin, a majority of Commission members favor elimination of forensic custody evaluations entirely, arguing that these reports are biased and harmful to children and lack scientific or legal value. At worst, evaluations can be dangerous, particularly in situations of domestic violence or child abuse.” (p. 4)

Risk Assessment for Child Abuse

In all cases of a child rejecting a parent surrounding court-involved custody conflict, a proper risk assessment for child abuse needs to be conducted to the appropriate differential diagnoses for each parent.

Path A -Targeted Parent Abusive: is the targeted parent abusing the child, resulting in the child rejection of this parent?

Path B: Allied Parent Abusive: is the allied parent psychologically abusing the child by creating a shared (induced) persecutory delusion and false (factitious) attachment pathology in the child?

General Public Consultation

I provide general public consultation the first week of every month at my online office doxy.me/drchildress (<https://doxy.me/drchildress>), scheduling is through my online [Scheduling Calendar](https://drcachildress-consulting.com/custom-page/scheduling-an-appointment/). (<https://drcachildress-consulting.com/custom-page/scheduling-an-appointment/>). The cost for consultation appointment is \$250/hr and I

bill through doxy.me at the end of the hour. I limit general public consultations to one (perhaps two) consultation sessions with parents.

Attorneys: I can provide as much consultation to attorneys as they desire. Ongoing consultation with attorneys and document review is arranged through a Scope of Service agreement.

Mental Health Professionals: I can provide as much consultation to involved mental health professionals as they desire. Consultation with mental health professionals can be arranged through my Scheduling Page (<https://calendly.com/maggiesark-childress/childress?month=2026-04>), and my emailing my case manager.

Second Opinion Document Review

I provide AI-augmented document review and second opinion consultation to attorneys and their parent-clients on forensic custody evaluations, mental health reports, emails and Our Family Wizard communications, and other court related documents.

Second opinion AI-augmented document review is engaged through a Scope of Service agreement with the attorney and parent-client.
